Hiring Manager

Dear Hiring Manager,

I am writing to express my interest in a role aligned with my background as a senior ERP Consultant, specializing in Oracle NetSuite and SAP solutions. With over 14 years of global experience delivering full-cycle ERP implementations across diverse sectors—including oil & gas, logistics, and finance—I bring a unique blend of business acumen, technical skill, and cross-functional leadership.

Currently serving as a Senior Principal Consultant at Oracle, I lead NetSuite configurations for high-priority clients, ensuring robust financial workflows, process automation, and seamless integrations. My past engagements with firms such as Bring IT, Pride Group Enterprises, and IT SMDS have further sharpened my expertise in ERP deployment, data migration, and user adoption strategies.

I combine strong technical skills in ABAP, SQL, Python, JavaScript, and Power BI, with a hands-on understanding of SAP FI/CO, S/4HANA, and NetSuite Admin Console. I have a proven track record of improving operational efficiency through intelligent system design, stakeholder alignment, and post-go-live support.

Beyond my professional experience, I recently completed an Advanced Diploma in Computer Programming and Analysis from George Brown College, where I broadened my full-stack development and data integration capabilities. This complements my Bachelor's degree in Automation of Manufacturing Processing, providing me with a solid foundation in both engineering logic and business system implementation.

I am confident that my deep ERP experience, technical versatility, and passion for transforming enterprise systems will allow me to make an immediate and meaningful impact on your team. I welcome the opportunity to further discuss how I can contribute to your organization's success.

Thank you for your time and consideration.

Sincerely,

Anar Samadzade
